

MEDALIST 870

A3 SUCTION FOLDING MACHINE

Product information

This is a compact and mobile two-plate folder designed to do simple everyday folding tasks with the optimum efficiency. It has a combination of rubber and steel rollers, and a heavy construction makes for high durability and lifespan.

A flip-up swing deflector enables bypassing of the fold plate, and the feed table swings up for easy access to the lower fold plate. The control panel has a built-in total counter and is accessible from either side.

The Medalist 870 is a cost-effective and easy to use solution for small format printers of every kind.
